## Imperial Fishing

Thank you for your interest in our Carp-track Boilie Range! Maybe you heard of us through the great success of some of the best carp anglers from across Europe! You bring the main component which is the 'feel good factor', we provide the rest and we won't disappoint you!

## Philosophy

Carp will eat almost everything, however there are certain substances that they definitely prefer. To figure out which they prefer is not done in a few hours, days or weeks. Even long-term trials over several months will initially only give an indication of tendencies. Our development and production is based on years of experience on the bank. We work in cooperation with a selection of highly successful anglers and together we have developed the Carptrack range. Carptrack is a range of products that manages to attract the carp like no other product whilst also offering the perfect diet for carp.

No matter if you fish short sessions without pre-baiting or longer sessions, Imperial Baits Carptrack products are accepted quickly and the carp will continue to feed on it in the longer term as well.

## Imperial Baits - Carptrack Boilies

ready **2** catch

Launched 11 years ago, and a success story ever since, the unique Imperial Baits Carptrack boilies are rolled from the exclusive Carptrack Mixes. In addition we use our highly effective flavours, Carptrack liquid, Carptrack inL, Carptrack Liquid Amino, Essential Oils as well as NHDC Liquid. *All for your success when doing what you love most - fishing for carp!*

### What is special about the Carptrack range

These boilies are an attractor, instant and long-term bait in one. That means for us nutritious boilies, produced from different natural and highly attractive ingredients. Our focus is that these ingredients partially dissolve and as palatants stimulate the carp taste buds from afar. Non taste- or remarkable extensive stabilisation against mould is a given!

### Carptrack Boilies stay fresh longer than other boilies

One characteristic of our boilies which is appreciated by many of our customers is the great control of moisture content. There is hardly any noticeable change to taste and it prevents any mold in the premium mix for at least a year. A great benefit is that the boilies won't dry out quickly even after the bag has been opened. This keeps the boilies juicy and tasty for a long time. This is a great advantage for you, meaning your bait is always fresh and that is the important thing for you!

### Proteins and other attractors

Carptrack Monster-Liver, Monster's Paradise, and Fish are at the top of the list when it comes to their protein content. Followed by Carptrack Worm Up Boilies, Elite und Elite Strawberry. To balance the lower Amino Acid profile of Osmotic Spice, Explosive Stickmix, Birdfood Banana Boilie and Uncle Bait „The Boilie“, besides using a highly attractive mix, we have also added Liquid Amino and the fantastic sweet Carptrack NHDC.

### Loaded power

Attractive, water-soluble taste, a multi-layered taste and a complete amino acid profile, generated through the protein rich base mixes make the Carptrack Range, which consists of Additives, Mixes, and Boilies, to the most extraordinary in the current carp sector - for over a decade!

### One-Of-A-Kind Catches

From the beginning it was extraordinary what has been caught on this bait. The fantastic feedback from you and our teammates is our motivation to continue doing what we do and how we do!  
*Imperial Fishing ...feel good!*

Our Big One gallery is waiting for you...!

4

## MONSTER'S PARADISE

A soft and gentle bomb until it hits the water!  
**Then it is a firework for the senses!**

There is a reason that this boilie is based on our fantastic Carptrack Monster Boilie, but contains only half of the Carptrack Powder content, making it less filling and therefore more versatile and easier to handle. It contains 5% Hungarian Paprika, 5% Spanish Pepper (from Haith's and much hotter than Robin Red), 2% Asian Garlic Powder and NHDC – The Original. It is rolled with 7ml/kg Carptrack Bloodworm Flavour and 1ml/kg Garlic Essential Oil. All together this creates a bombastic effect with both immediate and long lasting attraction and absorption.

Ø 16mm, 20mm, 24mm

- 2kg = 27,90 €
- 5kg = 67,50 €
- 8kg in iBox = 109,90 €

**The strongest Boilie in the world! Available without prescription!**

### Carptrack Monster's Paradise Boilies and Carptrack Explosiv Stickmix Boilies are also available in a Cold Water Version!

With our Cold Water products we guarantee maximum water solubility, especially in cold water conditions from November through April. **More about that on page 13.**

Ø 16mm, 20mm, 24mm

## Explosiv Stickmix

Extra special carp magnets like Carptrack Protein concentrate, Fishmeal, Vitameal, inP, GLM full fat blend, Betain, NHDC and Hemp are part of this exclusive mix. Spring, Summer, Autumn, or Winter, the Carptrack Explosiv Stickmix Boilie works all year around as soon as hitting the water. Made with the popular Carptrack Liquid Amino, Carptrack NHDC and Carptrack Honey Flavour – it's truly sensational!

**Let it explode in combination with the Explosiv Stickmix & Ground Bait!**

- 2kg = 24,90 €
- 5kg = 59,90 €
- 8kg in iBox = 94,90 €

**Try it and discover the carp's sweet tooth!**

# Worm up!

## Range - OUT NOW!

more Worm Up Info - [www.my-boilie.com](http://www.my-boilie.com)

### BIG ONES love it hot!

- Special Ingredients** • Cartrack inP • Liquid Amino  
 • Worm Up Flavour • Oriental Spice E. Oil • Shrimps  
 • Egg- & Lactalbumin • Linseed Crush • Fly Larvae  
 • Protein- & Squid-Liver Concentrate  
 • Cayenne Pepper • Roasted Hemp

See the complete development process from the first sketch to the complete range at:

[www.my-boilie.com](http://www.my-boilie.com)

## Carptrack Worm Up Range

We used the 'Crowdsourcing Method' in the development of the Worm Up Boilies, which was an interactive process, where the community could take part and took over 11 months!

See all details at: [www.my-boilie.com](http://www.my-boilie.com)

**The mix is exceptional:** Imperial Baits is the first bait manufacturer to use highly attractive fly nymphs (Hermetia)! Linseed delivers one of the highest concentrations of Omega 3 fatty acids. Fresh shrimp add a slightly salty note and a healthy portion of Cayenne Pepper spices things up a little! As a source for Fat/Protein we included roasted crushed hemp and combined all that with Lac- & Egg albumin for a solid foundation.

Only short boiling times create a hard Boilie and go easy on the ingredients.

We enrich the Boilie with 15ml/kg Cartrack Liquid Amino, 8ml/kg Worm Up Flavour and 6ml/kg Essential Oil Oriental Spice.

More information about ingredients at [www.imperial-fishing.com](http://www.imperial-fishing.com)

Good luck! max nollert

## Carptrack Elite Strawberry Boilies

This Carptrack Elite Strawberry Boilie is based on Fishmeal, water soluble ingredients like Carptrack inP, pure Green Lipped Mussel Extract, Carptrack Protein concentrate, as well as the high concentrated Strawberry Power Powder.

It also contains Carptrack NHDC – The Original (5ml/kg), Carptrack Liquid Amino (18ml/kg), Carptrack inL (18ml/kg) and Carptrack Elite Strawberry Flavour (5ml/kg) – a treasure in its purest form.

**This Boilie can be used in every water at all times with maximum success!**

2kg = €27.90 • 5kg = €67.50 • 8kg in iBox = €109.90

Ø 16mm, 20mm, 24mm

Ø 16mm, 20mm, 24mm

## Carptrack Monster-Liver Boilies

Back in 2007, we decided to offer what many people called 'The Most Successful Mix Of All Time' also as a Boilie.

It contains 50% of each Carptrack Monster and Liver Mix, as well as Carptrack Liquid (18ml/kg), Carptrack Monster Flavour (5ml/kg) and Carptrack Frankfurter Sausage Flavour (4ml/kg).

**The success has been and is legendary!** Hundreds of carp over 60lb, 70lb, 80lb and even 90lb have been caught on this big carp magnet! **It is also available as a Cold Water Boilie.**

2kg = €24.90 • 5kg = €59.90 • 8kg in iBox = €94.90

**Also available as Coldwater Boilies!**

## Carptrack Elite Boilies

Challenging conditions on the water require special baits. Especially busy hot spots, frequented by a lot of different anglers, this is when you want an exclusive mix that tempts the carp to bite again.

The Carptrack Elite Boilie contains inL (12ml/kg), NHDC (3,5/kg), Elite Flavour (5ml/kg), Liquid Amino (12ml/kg) and Essential Oil Black Pepper (1,5ml/kg).

**The Elite Boilie will become your best mate on the hunt for very big carp, especially in tricky and difficult conditions!**

2kg = €30.90 • 5kg = €74.90 • 8kg in iBox = €119.90

Ø 16mm, 20mm, 24mm

## Carptrack Fish Boilies

Using three different intensive LT-fishmeals, Robin Red, Super Red (Original Haith's), as well as water soluble Protein Concentrate make this mix to one of the most attractive Fishbaits currently on the market.

**Its pulling-power on carp is truly exceptional.**

The Carptrack Fish Boilie is produced with Liquid Amino (12ml/kg), our original Indian Essential Oil Black Pepper (3ml/kg) and Fish Flavour (6ml/kg). Perfect for all types of water.

A classic boilie from the first hour of Imperial Baits!

2kg = €25.90 • 5kg = €62.50 • 8kg in iBox = €99.90

Ø 16mm, 20mm, 24mm

*Zsolt Bundik  
Lac du Der  
BIG ONE!*

## Carptrack Osmotic Spice Boilies

Using highly attractive and water soluble ingredients as well as a special formula (fiber network), that allows the attractors to be released from inside the bait, this mix has from the very first minute a **guarantee for fish in all conditions without prebaiting!** Produced with the special Osmotic Spice Flavour (8ml/kg), Osmotic Spice Power Powder (1g/kg) as well as Liquid AMINO (18ml/kg) & NHDC (7ml/kg). **This one is also very successful in winter months.** Highly recommended for reservoirs and gravel pits.

2kg = €25.90 • 5kg = €62.50 • 8kg in iBox = €99.90

Ø 16mm, 20mm, 24mm,

Ø 16mm, 20mm, 24mm

## Carptrack Birdfood Banana Boilies

Nearly 100% water soluble Lamb's Milk, Carptrack NHDC (6ml/kg), Liquid Amino (12ml/kg) and probably the best Banana Aroma (8ml/kg) on the market give this Boilie a very distinctive and intensive scent and taste. No matter if you are fishing short or long sessions, these boilies are always a source of important energy for carp.

They are very effective with experienced carp and are also successfully used on rivers.

**Team angler Tomas Blazek swears by it for fishing Lac de Saint Cassien.**

2kg = €24.90 • 5kg = €59.90 • 8kg in iBox = €94.90

*Carp fishing isn't the most important thing in life,  
but according to many the greatest!*

max nollert

## Carptrack Cold Water Boilies

**Cold water but you still land the big ones!**

**The 5 most important rules to guarantee success:**

1. Don't overfeed! Fish digest food in cold environments very slowly (poikilothermic coldblooded animals). Feed little and often small portions!
2. From October onwards take note of where the carp are hold-up as this is likely to be close to their winter quarters.
3. Look for deep water or holes in which the water-flow is reduced and where the water temperature is 4 centigrade in the dead of winter! Water always freezes from the surface down to the bottom where you find the warmest temperature.
4. Carp tend not to move far in the winter time. If your swim isn't productive, find another one and keep changing till you have the first fish contact.
5. Feeding periods of carp in winter are often short. Low pressure conditions are often the most successful.

**Carptrack Cold Water Boilies have been specifically developed for fishing between the months from November through April, with colder water temperatures below 12°C.**

The ingredients in the Boilie Mix are the same, but we have increased the amount of water soluble components. This makes the Boilie easier to break down and the exchange of attractors is instant. Our team anglers and customers place great trust in our Cold Water Boilies and they have proven successful in the most extreme conditions, even in frozen lakes.

**The following products are available as Cold water Mix and Boilies in 16 and 20 mm:**

Cold Water Monster's Paradise    Cold Water Explosiv Stickmix  
Cold Water Monster-Liver

**11. February 2014 - Damien Simonelli  
30,5kg Saint Cassien giant!

+ Liquid, Powder, inP, inL**

# Carptrack Big Balls for Big Ones

**For the successful selection of big carp!**  
 Are you fed up with catching bream, roach, tench and other silver fishes?  
**Try Carptrack Big Balls as your hookbait!**  
**A 'must have' for every bait bag!**  
 With a diameter of 24mm they will stop playing with the bait because of the basic hardness.  
 They are also very resistant against crayfish attack.  
 Available in a handy 300g tin.

## Imperial Baits - Carptrack Mixe

ready **2** roll

Developed by Max Nollert and his team, complete and selective! A revolution in regards to attraction and diet and most importantly water solubility! The Carptrack mixtures are a result of intensive studies in search of the ULTIMATE BAIT for professional carp fishing. Made of top quality ingredients, the boilie mixes guarantee round, solid boilies always containing Lactalbumin and Eggalbumin with the highest efficiency factor for maximum success. The Carptrack formula has a fan base that spans Europe and has been effective for more than ten years!

## MONSTER'S PARADISE

A soft and gentle bomb, until it hits the water! **Then it's a firework of the senses!**

There is reason that this boilie mix is the base to our fantastic Carptrack Monster mix, but contains only half of the Carptrack Powder content, making it less filling and therefore more versatile and easier to handle.

It contains 5% Hungarian Paprika, 5% Spanish Pepper for sure (from Haith's and much hotter than Robin Red), 2% Asian garlic Powder and NHDC – The Original. It should be rolled with 5-7ml/kg Carptrack Bloodworm Flavour and 1ml/kg garlic Essential Oil. Together that creates a bombastic effect regarding immediate and long lasting attraction and absorption.

**The strongest Boilie in the world! Available without prescription!**

- 2kg = €22.90
- 5kg = €49.90
- 8kg in iBox = €79.90

## Explosiv Stickmix

Extra special carp magnets like Carptrack Protein-konzentrat, Fishmeal, Vitamealo, inP, GLM full fat blend, Betain, NHDC and Hemp are part of this exclusive mix.

Spring, Summer, Autumn, or Winter, the Carptrack explosive Stickmix Boilie works all year around as soon as hitting the water.

**Suitable for the use with PVA sticks, as well as loose balls. Can even be rolled into a Boilie.**

The dissolve time is between the Cold Water Boilies and the regular Carptrack Boilies. As it is so versatile it should always be a part of your bait choices. We roll it with the popular Carptrack Liquid Amino, Carptrack NHDC and the Carptrack Honey Flavour.

- 2kg = €16.90 • 5kg = €39.90 • 8kg in iBox = €59.90

Can also be enriched with other Carptrack Additives

## Carptrack Elite Strawberry Mix

This Carptrack Elite Strawberry Mix is based on Fishmeal, water soluble ingredients like Carptrack inP, pure Green Lipped Mussel Extract, Carptrack Protein concentrate, as well as the high concentrated Strawberry Power Powder, only 0.15%!

We recommend to roll it with Carptrack NHDC – The Original (5ml/kg), Carptrack Liquid Amino (18ml/kg), Carptrack inL (18ml/kg) and Carptrack Elite Strawberry Flavour (5ml/kg) – a treasure in its purest form. **The ready Boilie can be used in every water at all times with maximum success!**

2kg = €22.90 • 5kg = €49.90 • 8kg in iBox = €79.90

## Carptrack Elite Mix

Challenging conditions on the water require special mixes. Especially busy hot spots, frequented by a lot of different anglers, this is when you want an exclusive mix that tempts the carp to bite again. The Carptrack Elite Mix is based on Carptrack Fishmeal. We use water soluble attractants like Carptrack inP (6%) and pure Green Lipped Mussel Powder (3%)!

Another important part in this mix is the special water soluble protein concentrate.

**This Mix will become your best mate!**

2kg = €25.90 • 5kg = €59.90 • 8kg in iBox = €94.90

*Winter successes with Carptrack Cold Water Boilies from Daniel Trinkl, Patrick Härer, Selina Kürner and Andreas Stark:*

## Carptrack Fish Mix

Using three different intensive LT-fishmeals, Robin Red, Super Red (Original Haith's), as well as water soluble Protein Concentrate make this boilie mix to one of the most attractive fish mixes currently on the market.

**It's pulling-power on carp is truly exceptional.** The Carptrack Fish Mix should be rolled with Liquid Amino (12ml/kg), our original Indian Essential Oil Black Pepper (3ml/kg) and Fish Flavour (6ml/kg). Perfect for all types of water.

**Our Best Seller since the beginning in 2004!**

2kg = €19.90 • 5kg = €42.90 • 8kg in iBox = €67.50

## Carptrack Monster-Liver Mix

The wait has an end. The combination that has been mixed by thousands of anglers themselves is now available as ready Carptrack Mix.

It contains half of each Carptrack Monster and Liver Mix. Recommended to roll with Carptrack Liquid (18ml/kg), Carptrack Monster Flavour (5ml/kg) and Carptrack Frankfurter Sausage Flavour (4ml/kg).

**The success has been, and is legendary!**

Hundreds of carp over 60lb, 70lb, 80lb and even 90lb have been caught on this big carp magnet!

**Is also available as a Cold Water Mix.**

2kg = €16.90 • 5kg = €39.90 • 8kg in iBox = €59.90

**Also available as Cold Water Mix!**

## Info Cold Water Mixes

We focus with our Cold Water Range on maximum water solubility, especially in cold water. Cold Water Boilies are solubilising as fast in cold water as usual boilies in the warm summer time!

From October till April!

**Many ice- and snow carp have been caught on these cold water products! Give it a try!**

**ICE COLD**

**3. January 2014 - Andreas Stark  
Monster-Liver Cold Water Boilies  
+ Carptrack Amino Pellets 4 mm**

## Carptrack Osmotic Spice Mix

Using highly attractive and water soluble flours as well as a special formula (fiber network), that allows the attractors to be released from inside the bait, this mix has from the very first minute a **guarantee for fish in all conditions without pre-baiting!** Should be rolled with the special Osmotic Spice Flavour (8ml/kg), Osmotic Spice Power Powder (1g/kg) as well as Liquid AMINO (18ml/kg) & NHDC (7ml/kg). **The ready rolled boilie is also very successful in winter months.** Highly recommended for reservoirs and gravel pits.  
 2kg = €19.90 • 5kg = €42.90 • 8kg = €67.50

## Carptrack Birdfood Banana Mix

10% Lamb's Milk as well as specially manufactured banana powder (Power Powder) make this a true delicacy, not only for carp. Inside is 30% Birdfood Witte Molen, as well as lambs milk, the premium and most water soluble form from 'Vitamealo'. Enriched with minerals and vitamins, this mix also contains pulverized NHDC!  
 Roll your Cartrack Banana Mix with Cartrack NHDC (6ml/kg), Liquid Amino (12mg/kg) and the best IB Banana-Aroma (8ml/kg). **Tomas Blazek swears by it for fishing Lac de Saint Cassien.**  
 2kg = €16.90 • 5kg = €39.90 • 8kg = €59.90

# Recipes

The original Cartrack recipes can be found on each of the Boilie- and Mix Descriptions!

## Imperial Baits iBox & iBox the Big One

### iBox 12,5 Litre & iBox the Big One 30 Litre

Our iBoxes are practical and versatile. The seal makes them almost completely water and odor tight. Store dry clothes, food, carp sacks or bait in your iBox. Made of nylon reinforced plastic, they are very sturdy and you can even freeze them. Perfect use of space, as you can easily stack them.

The special extra on the iBox 30 Litre is an internal compartment (holds 7 liters), which can be used to store Cartrack Additives or to mix Stick/Method Mix. Delivered with metal handel.

#### iBox 12,5 Litre

Quantity 1-2 = €8.90 / unit  
 Quantity 3-5 = €7.90 / unit  
 Quantity 6-7 = €6.90 / unit  
 Quantity 8 or more = €5.90 / unit

#### iBox the Big One 30 Litre

Quantity 1-2 = €19.90 / unit  
 Quantity 3 = €49.90

iBox the Big One inclusive practical internal compartment.

## Carptrack Squid/Liver flour

The Carptrack Squid/Liver flour contains a high concentration of Free Amino Acids. This Boilie ingredient is very attractive and water soluble (Palatant) and is normally used as 10% - 25% of a Boilie Mix.

**This improves even the most basic home-grown mix massively.**

The concentrate is very intense in taste and gives your recipe huge pulling-power in all conditions. Up to 50% in a mix has been successfully tested. **Also very effective as an after Bait-Pimp!**

1kg = €12.50 • 2,5kg = €29.90 • 10kg\* = €119.90

**\* delivered in iBox the Big One!**

## Carptrack Protein concentrate

High protein concentrate whilst being perfectly digestible, low ash content, high in water soluble proteins, excellent binding properties make it perfect for Boilie production.

**Highly stimulating for carp and also other species.** Use 5% - 10% Carptrack Protein Concentrate in your Boilie Mix.

Carptrack Protein Concentrate is an important ingredient in all Carptrack Mixes. The results are truly remarkable.

**Also very effective as an after Bait-Pimp!**

1kg = €6.90 • 2,5kg = €15.90 • 10kg\* = €59.90

**\* delivered in iBox the Big One!**

## Carptrack Add Fat

**Fat is the number one flavour enhancer.**

Add Fat is based on a special meat meal and contains flavouring substances as enhancer for a strong and distinctive meat taste.

**Make your Boilie or Stickmix round with Add Fat and intensify their taste.**

In addition fat is an important energy source and bears the vitamins A, D and E.

We suggest a dosage of 5 to 25% in the boilie mix.

**Catch more carp with Carptrack Add Fat and make them crazy for your carp food.**

1kg = €6.90 • 3kg = €16.90 • 10kg\* = €59.90

**\* delivered in iBox the Big One!**

*yellow - orange - red - white - pink*

### Characteristics of this hook bait:

- Hard and solid
- Long buoyancy, even at great depths
- Highly visible due to special luminous colours

### How to use:

- Use the natural curiosity of the carp. Fish V-Pops over the feeding area or as a Single Hook Bait.
- Enormous number of catches from clear and semi murky waters speak for themselves...
- Pimp neutral V-Pops as you wish too.
- The Carptrack Amino Dips with their adhesive strength, Amino Gels and Flavours work very well for this.
- Try fishing pressured venues even without added flavours!

Ø 10mm (40g) = €9,90

Ø 16mm (100g), 20mm (100g), 24mm (100g) = €9,90

## Carptrack V-Pops

## Carptrack Flying Hookbaits

## Carptrack Half'n Halves

Carptrack Flying Hook Baits are made of 65% of the individual original Cartrack Mix, which is pretty special! Flying Hook Baits give you a noticeable and highly attractive bait presentation in all conditions.

*fly high!*

Carptrack Half'n Halves combine both the visual and flavourful appeal in a very special way. Being produced half from V-Pop white and half from an original Cartrack Sinker Mix keeps them powerful tasty and attractive!

They last as hookbaits much longer than two cut halves. Another great advantage is the perfect balance of the bait by putting small lead to the boilie hair. The carp hardly notices it by its weight which makes it easier to be sucked in. Success all across Europe prove the quality of this bait.

## NEW: IB Power Tower System

### Easy to handle, easy to use:

- Related cans with threads on both sides.
- The top can always form the lid of the bottom.
- Clear and convenient storage of various products.
- Excellent storage of small parts.
- Also provided for food: tea, soup powder, sugar, salt, etc.
- Light-proof boxes, but visibility of the contents.

*We hope that everyone enjoys finding their own way to put the IB Power Tower to use.*

#### Products in the IB Power Tower System Boxes:

- IB Carptrack Half'n Half Hookbaits (all grades - 16 and 20mm) = €9,50 / 75g
- IB Carptrack Flying Hookbaits (all grades - 16 and 20mm) = €7,90 / 65g
- IB Carptrack V-Pops (all colours - 16 and 20mm) = €7,90 / 60g

## NEW: IB Power Tower System Sets

The IB Power Tower System allows each fisherman to combine his personal « IB Power Tower » with exactly those products he needs for his fishing session.

### „6 Winners“ - Flying Hookbaits & V-Pops. Free selection.

Choose between 6 different IB Carptrack Flying Hookbaits or V-Pops in the handy IB Power Tower System Boxes. You can choose freely between the different sorts, sizes and colours of the Pop Ups. We deliver each six IB Power Tower System with two covers. So you can leave the products you do not need at home and the other part finds its way in your fishing bag.

„6 Winners“ = €39,90 instead of €47,40

### „5 Winners“ - Half n Half. Free selection.

Choose between 5 different IB Carptrack Half'n Halves in the handy IB Power Tower System Boxes. You can choose freely between the different sorts and sizes of the Pop Ups. We deliver each five IB Power Tower System with two covers. So you can leave the products you do not need at home and the other part finds its way in your fishing bag.

„5 Winners“ = €39,90 instead of €49,50

### Single box, single cover, system of 3 boxes - empty

Your products are always well organised, no matter where you are: in your basement, tent, boat etc.

The IB Power Tower Boxes are also perfectly appropriate to put away your rigs, swivel, leader material and CO.

Single box (empty) = €2,00

Single cover = €0,50

Single box + cover (empty) = €2,50

System of 3 IB Power Tower + cover (empty) = €6,90

## Carptrack Amino Dips

**Amino Dip after 1 hour**

**Dipped shortly is hip today!**

# imperial baits

# Amino Gel Wonderball

It was IB team member Stefan Ista who came up in early 2013 with the fabulous idea to combine the different Cartrack Amino Gel varieties on one single hook bait. The variations are limitless! Play with the different colours and smells of the Amino Gels and make your boilie to a ... Cartrack „**WONDERBALL**“

In this example, we show our recommendation for Uncle Bait „The boilie“!

„**WONDERBALL**“ ingredients:

- IB Cartrack Uncle Bait „The Boilie“
- IB Cartrack Amino Gel Elite Strawberry
- IB Cartrack Amino Gel Cream/Scopex

## Uncle Bait Pimp

1. Dip your hook bait completely into the water. Whether boilies, pellets, particles, etc. is irrelevant.

2. Shake the Amino Gel cans well before use and then dip the bait halfway into the first variety Cartrack Amino Gel.

3. Now poke the other side of your bait with the boilie needle and dip the still wet side in the second selected Cartrack Amino Gel variation.

4. The bait should now be taken to your boilie hair and can then be re-dipped into the water to fix the Amino Gel.

### Conclusion:

Visual stimulation through colour contrast / „The boilie“ shines through the crystal clear Amino Gel Cream / Scopex in its original colour!

The Amino Gel Cream/Scopex is nearly invisible in water!

The Amino Gel Elite Strawberry contrast bright red!

*Monster's Paradise Amino Gel in Action - last up to 12 hours - the taste will even stay for much longer!*

*Especially in winter, the attractiveness of the hookbait plays a crucial role!*

# Imperial Baits - Pimp my Baits!

Dear carp angler,

with a wide range of Cartrack Additives and Ingredients we offer you a comprehensive repertoire to get maximum success in every situation on your hunt for big Carp.

The following sites introduces our products, how to use them and the possibilities they offer with maximum attraction from day one, even without pre-baiting.

We get feedback from our team anglers around Europe and pass it on to you.

Imperial Baits wishes you great success on the water and is happy to share decades of knowledge and experience with you!

max nollert

**25kg  
River Carp**

**NEW as Amino Complex Liquid & Amino Complex Powder (page 48)**

Success Pimp per kg of bait: 10g inP, 10g Powder, 5g GLM, 10ml inL, 10ml Liquid, 10ml Liquid Amino – powder first, then shake it followed by liquid. 36

## Where to use it:

The Cartrack Additives can either be used to enhance the Boilie Mixes or sprinkled on boilies afterwards, which we would like to focus on the following sites.

Refining your carp bait, no matter if Pellets, Particles, Boilies, Ground Bait or Stickmix, is of great advantage in every situation and condition while carp fishing.

Especially when the fishing pressure is high or during very quiet times when nothing is happening it's even more important to introduce an attractive bait to present the carp with a feeding trail that he won't be able to resist and which will trigger his appetite.

Pimp  
my Baits

## sprinkled bait

## The Soil/Sand Tip

Mix Cartrack Add Fat, Squid Liver and Protein Concentrate with soil or sand. This creates a highly attractive cloud underwater.

You can add further additives like inL / inP or GLM Full-Fat blend for an even higher attraction of the combination.

*30-50% attractors  
balance with soil  
or sand*

*Andreas Stark with BIG ONE on CT Additives*

## Imperial Baits - Carptrack Additives

ready **2** catch

Carptrack Additives are incredibly easy to use for the production of boilies as well as with ready made boilies or other carp food. One or alternatively several Carptrack powder Additives will be „fixed“ at the application from the outside of bait with Carptrack Liquid, Carptrack inL or Liquid Amino. Because they are concentrated, we advise not to use more than the recommended dose. The products are very efficient and increase your chances of catching tremendously, as thousands of success stories around Europe prove.

**NHDC – The Original is only available from Imperial Baits!** Imperial Baits, your only source for the original NHDC. Try it for yourself, compare and you will see the difference! More sweet, more powerful, more amazing. **Never bitter!**

### Tasty flavours

The flavours used in the Carptrack Range are very intense. Their taste is unmatched and they are highly resistant to boiling. They are the perfect symbiosis with the ingredients used in the different Carptrack base mixes.

**The Classics:**  
**Carptrack inL + inP**  
**+ Powder + Liquid**

enough for  
30-50kg Baits

## Carptrack Liquid, Powder and „LP Paste“

Freshly sprinkled boilies

dry them for 2-3 hours

### Carptrack Liquid and CT Powder

The special Liquid & Powder have an enormous attraction to carp. They are natural based products. The systematic addition of L-Amino Acids, as well as the following Mail-lard Reaction make this product one of the best attractors for carp. Use Liquid and Powder together to combine their individual great effects in combination. Make the irresistible Carptrack Paste with Carptrack Liquid and Powder. Enhance the taste and make it more individual with one of the different, efficient Carptrack Power Powders. You can find more tips and tricks on how to pimp your bait on the following catalogue pages.

### Carptrack Powder

Dosage Powder: up to 25g/kg  
100g = €7.90 • The Big One 400g = €22.90 • Mega One 1kg = €39.90

### Carptrack Liquid

Dosage Liquid: up to 30ml/kg  
300ml = €9.90 • The Big One 1000ml = €24.90

### IB Carptrack Liquid-Powder Paste (ready in the tin)

**The time has come:** the as extremely catchy known Carptrack Liquid-Powder paste is from now on available ready from the can.

**Max Nollert:** „As a carp angler there is a life before and after the first time with Liquid Powder Paste! Test the paste now and your fishing day will no longer be the same!“

### THIS HAS NOW AN END - for all of us!

39 180g Liquid-Powder Paste ready to use in a tin = €10,90  
Contains: 130g CT Powder, 50ml CT Liquid

Tips for  
application

# Tip for dough or taste for paste?

Mix 1 part Carptrack Liquid and 7 parts Carptrack Powder and you will get an irresistible paste which is similar to a chewing gum. **Use it to coat your Hookbaits or Boilies!**

Prepare the bait before you go fishing and keep the ready coated hookbaits in a bag or tub, there they stay fresh for weeks! Or mix it on the bank when you are fishing...

The paste has a very intense smell and keeps emitting attraction for 10 to 50 hours (depending on the water conditions). This special attraction can't be achieved by any boilie of the world!

If you are looking for the ultimate attraction then you should give Carptrack Liquid and Powder Paste a try! We are sure it will delight you!

**Every Imperial Fishing Team member, as well as many professional carp anglers across europe, swear by that Carptrack „Wonderpaste“!**

**7 Parts Powder + 1 Part Liquid = Liquid-Powder Paste**

**Additional Tip:** Prepare the paste in a small plastic bag containing 50g-100g. Knead the paste from the outside of the bag to keep your fingers clean. Or buy the paste ready to use in the can.

## LP Paste, how it works:

**Dissolve time 10-50 hours!**

40

**Note: min. hair distance 2cm because the LPP grows up!**

**Brad Smudzinski - Liquid Powder Paste!**

## The Liquid-Powder Paste test in the water glass:

- After 1 hour:** The paste is soft and very slimy. The colour is brighter. The water is already clouded and smells strongly like Powder. In addition, the paste increases in volume slightly. Therefore be prepared that your boilieshair is not too short!
- After 12 hours:** The Liquid-Powder Paste has become much softer, but it still holds strong on the Bait. The water is heavily clouded, it has increased significantly.
- After 16 hours:** When breaking the Liquid-Powder Paste it is clearly visible that the boilie in the inside also had contact with the water and is already moist.

**Conclusion:** The paste keeps for a long time on the bait and still has a strong, intensive smell after 12 hours in the water. The life of the boilie is significantly increased by the paste. The attraction of the bait is maintained for days!

# The „Hotmaker“ basic rules

## Which Cartrack Additives are most suitable for which boilie type?

We separate our boilies into two categories. Stinkers and Yummies:

Worm Up • Monster's Paradise  
Elite • Monster/Liver • Fish

Uncle Bait • Explosiv Stickmix • Elite Strawberry  
Osmotic Spice • Birdfood Banana

Their strong taste and smell make **Cartrack Liquid** and **Cartrack Powder** the perfect additions to stinky boilies.

Both components stick very well to the Boilie and work for a long time under the water. Remember when you are sprinkling your Boilie to use the powder first then after shaking well, add the liquid.

This guarantees the perfect distribution.

The intense aroma of **Cartrack inL** and **inP** doesn't remind you of tasty strawberries or bananas, but together these additives create an attractive combination with our Yummies. These highly water soluble components work even in waters that normally don't respond to stinkers at all. Especially in winter time you should be working with **inL** and **inP**, obviously also on the Stinkers.

## Liquid Amino

## A very special taste!

**Cartrack Liquid Amino** has a rather explosive taste, but with a soft aroma.

A lot of carp anglers like using it in combination with **Cartrack inP** or **Cartrack Powder** to sprinkle their boilies afterwards. It creates for **Stinkers** and **Yummies** a perfect additional note and is exceptionally stimulating for the carp.

Also in combination with our Power Powders or in connection with the different Amino Gels- a blast! **Feel free to experiment! With our Additives you can not go wrong!**

*Marco Bertaglia  
loves the IB Yummies!*

*Stefan Fiedel  
with 31kg*

**Less food necessary, as each bait gives more attraction**

**Less likely to overfeed**

**Nevertheless immediate and long-lasting attraction in the water**

**With less food the fish is faster on the hook bait**

## The advantages at a glance

**Dry and perfect for the throwing stick**  
All Cartrack Additive sprinkled boilies can be used with a throwing stick. Just make sure the Additives have been soaked in long enough and slightly dried. Depending on the dosage that only takes a few hours.

**Let it fly and get the Big One out!**

## Carptrack Additives

**Cartrack inP and inL** are water soluble enhancers in powder and liquid form, which signal food to the carp in a natural way through Lecithin, Yeast and Liver. Recommended to be used in your boilie mix or sprinkled onto the outside of Boilies, Pellets, Particles, Stickmix. **A true carp magnet!** Max Nollert and René Rex have already been fishing these great products from the year 2000 on with well known great success.

### Cartrack inP

Dosage: In the mix or to be sprinkle onto the outside 20-40g/kg  
150g = €10.90 • The Big One 500g = €24.90 • Mega One 1kg = €45.00

### Cartrack inL

Dosage: In the mix or to be sprinkled onto the outside 20-40ml/kg  
Tub 300ml = €8.90 • The Big One 1000ml = €22.90

**PIMP IT!**

**Cartrack Liquid Amino** triggers a strong feeding impulse in carp. Ingredients: Dissolved Betaine (N-Trimethylglycine), L-Methionine, L-Cysteine, L-Alanine, L-Arginine, L-Proline, L-Tryptophan, Vitamin B6, Protein, Carbohydrates. Especially Bernard Hesse contributed to the development. He has been using these ingredients for over 18 years. In some of his most recent catches the addition of Liquid Amino has played a big part.

Dosage: In the mix or sprinkled onto the outside up to 20-40ml/kg  
Tub 300ml = €11.90 • The Big One 1000ml = €24.90

**Cartrack NHDC the original** (Neo Hesperidin Dihydro Chalcone) is 1800 times sweeter than sugar without being bitter. The taste is so unique, making it instantly recognisable for you and the carp. One of the best carp-magnets around. Use it for your own Boilie production and/or externally for example with Cartrack Liquid Amino to pimp your baits. Our original NHDC has been often copied but has never been beaten! Please compare.

Dosage: In the mix or to be sprinkled onto the outside 3-7ml/kg  
Alu Flacon 65ml = €14.90 • The Big One Alu 300ml = €44.90

**Cartrack GLM full-fat blend** can be used in the mix or to be sprinkled later onto Boilies and Particles. A thousand words couldn't describe the difference in taste of this energy packed GLM compared to the fat-free version. Oils and fats are the main taste carrier which are found in this product. Even though it may be expensive carp are highly attracted to the full fat blend. **It is simply a must have!**

Dosage: In the mix or to be sprinkled onto the outside 5-30ml/kg  
Tub 100g = €17.90 • The Big One 500g = €79.90

## Carptrack Additives

**Cartrack Intense Fish Oil** gives a pure and therefore very intense fishy taste, which is known as an instant attractor (it is the main attractor in most pellets) and contains vitally important fatty acids. It's a remarkable ingredient for every Boilie Mix. Summer and Autumn are the best seasons for a successful session, even in intensely fished waters. Highly attractive and creates a cloud of attractant that rises through the water.

Dosage: In the mix or to be sprinkled onto the outside 20-40ml/kg  
Dose 300ml = €7.90 • The Big One 1000ml = €14.90

**Cartrack Aminoacidkomplex, Cartrack Betain and Cartrack Liver Powder** have the advantage of containing a lot of different Amino Acids. Their attraction to carp has been documented and proved while fishing many times. These are very popular additional ingredient for the Boilie production at home. They are also very effective when sprinkled onto the outside with Cartrack Liquid, inL or Liquid Amino. Each of these three Cartrack Additives has a very distinct taste and smell. Add this intense note to your bait, which will make it much more attractive and more powerful to catch carp!

Dosage: Use 5-10g/kg Boilie Mix for Cartrack Aminoacidkomplex and Betain and up to 50g/kg Boilie Mix for Cartrack Liver Powder.

**Liver Powder** 150g = €9.90 • The Big One 500g = €24.90

**Betain** 150g = €9.90 • The Big One 600g = €24.90

**Cartrack Stabil'it** – effectively inhibits the growth of mold, for weeks! Add to your eggs. Stabil'it gently stabilises without the bitter side-effects found with some preservatives and your mix become even easier to roll. Use BPS for your production. Dry your boilies for at least one day, store them dry and cool and never expose them to direct sunlight. That guarantees a long Boilie stability and freshness.

Dosage: 50-80 ml/kg  
Tub 300ml = €6.90 • The Big One 1000ml = €14.90 • 5 Litre = €49.90

**Cartrack Power Powders** – Incredibly strong taste, an extremely intensive smell, high concentration - dosage: 1g per kg!

**Power Powders - now also available in 25g**

Cartrack Pocket Power Powder 25g = €6,50

Cartrack Power Powder 100g = €14,90

**Power Powder Sorts:**

Elite Strawberry  
Cream/Scopex  
Osmotic Spice  
Tutti Frutti  
Banana

**POWER POWDER**

# Carp are gourmets!

## Carptrack GLM full-fat blend

A thousand words can't describe the difference in taste to the fat free version of GLM, which you find on the market.

Oils and fats are the main taste carrier of solid food. For the pharmaceutical industry and cosmetics, it is "the gold" of this largest export product of New Zealand.

GLM Full-Fat is much more expensive and much more powerful in taste and attraction! **It is a bit less soluble in water!** We produce a 50/50 blend, which perfectly combines the advantages of water solubility and great taste.

Carptrack Full Fat Blend is a standard ingredient in a lot of our products but we also still like to use it as a powder-dip to further enhance our baits.

The effect it has on carp is phenomenal, even in low dosages. Together with other Carptrack Additives the already impressive allure can still be improved.

# Green Lipped Mussel - they love it!

*Carp love it sweet!  
They can smell NHDC  
from a far distance!*

**Successful Bait Pimp per kg bait:**  
10g **inP**, 10g Powder, 5g GLM,  
10ml **inL**, 10ml Liquid, 10ml  
Liquid Amino, 3ml NHDC

**Power Powders  
pimp all mixes!**

# Don't spend more, catch more!

**Reduce the amount you feed but sprinkle your feed with Carptrack additives to increase its pulling power!**

## Carptrack NHDC and Carptrack Power Powders

When it comes to fine tuning then Carptrack Power Powders deliver the taste and aroma, as well as NHDC the original for the very special sweetness.

Carp like it sweet. NHDC is 1800 times sweeter than sugar, without being bitter at all! Therefore 3-7ml/kg bait is large enough.

Use it for example to enrich Liquid Amino or Carptrack Liquid and add it to your bait to achieve a more 'rounded' and tasteful flavour. We guarantee an amazing and very unique taste!

Carptrack Power Powders in the mixes of Elite Strawberry, Osmotic Spice, Tutti Frutti, Banana and Cream/Scopex are highly concentrated. Only 1g/kg bait are enough to change the taste and smell significantly. Use it to improve your own Boilie mixes, Stickmix, Ground Bait or sprinkle it onto Boilies or Particles. **Try it for yourself!**

## Carptrack Amino Complex Liquid & Complex Powder

### IB Cartrack Amino Complex Liquid

Consists of:  
Carptrack Liquid 19,5%, inL 19,5%, Liquid Amino 60%, NHDC 1%

**All the liquid Cartrack additives combined to one liquid!**

Maximum amino acid power, distinctive taste and odor, extreme water solubility = **extraordinary carp magnet!**

**Dosage:** In the mix or for coating the bait 25ml - 50ml / kg  
Tub 300ml = €14,90 • The Big One 1000ml = €29,90

### IB Cartrack Amino Complex Powder

All the dry Cartrack additives combined to one powder!  
Maximum amino acid power, distinctive taste and odour, extreme water solubility = **extraordinary carp magnet!**

**Dosage:** In the mix or for coating the bait 25ml - 50ml / kg  
Tub 150g = €14,90 • The Big One 500g = €29,90

Carptrack Additive	Content
Powder	35%

## Imperial Baits Clickbox & Sets

### Imperial Baits Clickbox - the original from Buchsteiner = €6,90 / Piece

The Imperial Baits Clickbox is perfectly convenient for the storage of your pop ups, gels, dips, additives, boilies, pellets or particles. It is also provided for the transport of many foods and your snacks. The Imperial Baits Clickbox is produced by the worldwide prestigious german company Buchsteiner and is of course microwavable and dishwasher-proof.

- High Quality scratch and dishwasher-proof logo print
- Nestable two by two in the iBox 12,5 Liter

**Dimension:** 24 x 20 x 8cm

## IB Clickbox Sets

### Uncle Bait - the Starterpack! = €29,90

Content:

- 1kg \*Uncle Bait „The Boilie“
- 40g \*Uncle Bait „The Pop Up“
- 50ml Uncle Bait „The Amino Dip“
- 30g Uncle Bait „The Amino Gel“
- + Uncle Bait Sticker - FOR FREE
- + Imperial Baits Clickbox - FOR FREE

\*Size 16 or 20mm at your choice

49

### „Give me 5“ - Dips & Gels = €39,90

Fill the IB Clickbox after your choice!  
5 tubs at your taste, choose the products by yourself!

**Content at your choice:**

- Cartrack \*Amino Dip 150ml
- Cartrack \*Amino Gel 100g
- + Big „The Art of Bait“ Sticker - FOR FREE
- + Imperial Baits Clickbox - FOR FREE

\*all varieties are possible - FREE CHOICE!

# Good to know!

Have you already thought about Boilie surface or Boilie quantity related to the different diameters?

No? Then we want to open your eyes now!

Take a look at the following chart:

Boilie diameter	Boilie surface in cm <sup>2</sup>	Weight per Boilie	Boilie quantity per kilo	Boilie surface per kilo in cm <sup>2</sup>
16mm	8,04	approx. 3,1*	322,5	2592,9
20mm	12,56	approx. 6,05*	165	2072,4
24mm	18,09	approx. 10,0*	100	1809

\***Caution:** The denoted data were determined on the basis of the IB Cartrack Worm Up Boilies. Data can vary depending on the Boiliesorts ( the used ingredients) as well as production and drying process.

**Inference:**

### The Boilie quantity per kilo

If you do not have too much problem with white fish, use 16mm Cartrack Boilies, calculated on 1kg Boilies, you even double the amount of baits in the water, in contrast to 20mm Boilies. Carp are longer busy with the search and stay longer at your fishing spot, in spite of the same food amount!

### The Boilie surface

Concerning the attraction of baits under water, the Boilie surface is an interesting theme. Contemplate the right column of the chart you will notice clearly that 1kg 16mm Boilies has a approx. 25% major surface than 1kg 20mm or approx. 40% major surface than 1kg 24mm Boilies. The smaller the Boilie diameter, the greater is the entire attraction at the same food amount.

### The conclusion

At the same food weight, 16mm Boilies feature a major surface than the 20 or 24mm Boilies. The amount of single baits is much greater. If you pimp as an example 1kg Boilies with the well-known Cartrack Additives, you moisten a bigger surface by using smaller Boilies, which is providing a more important attraction in the water. We can also use more additives in g / kg. A 30's pimp makes for smaller baits more sense. Feed counted Boilies for example 10 pieces of 20mm and 10 pieces of 16mm, than the surface of the 20mm is much bigger. We suggest 24mm only in the case of fishing selectively Big Ones and avoid smaller catches. As hook bait the single 24mm Boilie's surface is more than the double of the 16mm bait. Correspondingly strong is its attraction impact!

# New measuring unit: Bait Pimp

10's Bait Pimp

20's Bait Pimp

30's Bait Pimp

### What is a 10's, 20's or 30's "Bait Pimp"?

For example a 30's „Bait Pimp” is specifying a mixing proportion of **Cartrack Powder 30g and Liquid 30ml** at bait moisture from the outside. The result was that at external moisture with a liquid and a farinaceous product, the amount of gram and millilitre should stay the same to achieve an optimal "Bait Pimp".

Due to this mixing proportion you receive the perfect and well-known Cartrack crust, without having sticky baits!

**The perfect and well-known Cartrack crust, without having sticky baits!**

## Carptrack Flavours & Essential Oils

Carptrack Flavour	Quantity	Dosage	Price in €
„Carp Total!“ Flavour	50ml	7-9ml/kg	11,90
Worm Up Flavour	50ml	7-9ml/kg	11,90
Bloodworm Flavour	50ml	5-7ml/kg	10,90
Monster Flavour	50ml	3-6ml/kg	9,90
Elite Flavour	50ml	3-6ml/kg	10,90
Fish Flavour	50ml	4-7ml/kg	11,90

Elite Strawberry	50ml	3-5ml/kg	12,90
Osmotic Spice	50ml	5-8ml/kg	10,90
Honey	50ml	3-6ml/kg	9,90
Banana	50ml	4-6ml/kg	9,90
Cream	50ml	4-6ml/kg	9,90
Nut	50ml	4-6ml/kg	9,90
Fruit	50ml	4-6ml/kg	9,90
Essential Oil Black Pepper	50ml	1-3ml/kg	24,90
Essential Oil Black Pepper	20ml	1-3ml/kg	13,90
Essential Oil Oriental Spice	50ml	5-7ml/kg	11,90
Essential Oil Garlic	10ml	1ml/kg	9,90
Essential Oil Garlic	20ml	1ml/kg	14,90

### What Max Nollert has to say about this:

*'After all these years as a carp angler and bait manufacturer, I'm still amazed how much impact Flavours and Essential Oils have on the feeding habits of carp.'*

52

53

## Carptrack Amino Pellets

**25mm with hole**

**15mm without hole**

**4mm without hole**

Carptrack Pellets dissolve very slowly and have been produced to meet the needs of coarse fish. They catch EVERYWHERE immediately and can also be used as excellent additional food for fishing with Carptrack Boilies or in combination with the Carptrack Stickmix.

### The special effects:

Use Carptrack Liquid (Amino), Fish Oil and Powder on these pellets a few hours before feeding. Same as with the Boilies. **Good luck and enjoy taking great pictures of your catches!**

### Nutrients:

- Amino Acids: L-Lysine, L-Methionine, L-Cysteine
- Vitamin: A, D3, E, C
- Fatty Acids: Omega 3, Omega 6
- Protein: 32%
- Fat: 9%
- Moisture: 3.2%
- Ash: 11%
- Carbohydrates: 34.8%

### Big Info:

Use **BPS** to increase dissolving time up to the double! Just spray it simply to the pellets in a bucket...!

### Ingredients:

Wheat flour, Fishmeal, Soycake, Rapeseed cake, Vegetable oils, Amino Acids, Prawn flour, Fishoil, Vitamin Mix

**Amino Pellets  
4mm and 15mm:**  
2kg = €8.90  
5kg = €19.90  
10kg = €39.90

**Amino Pellets  
in 25mm:**  
2 kg = €10.90  
5kg = €22.50  
10kg = €45.00

## Imperial Fishing accessories for the Boilie production

### Boilieroller 'Professional'

- 100% accurate fit
- Made of nylon reinforced plastic
- Moulded in one piece, without screws
- Non-slip rubber pads
- Extendable handles
- Additional option to be screw tight
- Produce perfectly round Boilies!

Diameter in mm: 16, 20, 24 = €19.90

Diameter in mm: 30 = €24.90 • 35 (Supersize!) = €29.90

### Boilie handgun 'Learner' – 1kg dough

- Capacity approx. 1kg dough
- Cast made press
- 8mm steel piston
- Chunky and very stable screw thread
- Includes one nozzle that can be cut to size
- Excellent leverage ratios without distortion

Boilie handgun 'Learner' – 1kg dough = €34.90

### Boilie Airgun 'New Generation' – Beginner – 1kg dough

The Boilie-Air-Gun allows you to produce several kilos of boilies in a very short time. Use a standard compressor to shoot the high performance 'sausages'. Please see also the description for Alu-Airguns 'New Generation'.

Boilie Airgun „Beginner“ – 1kg dough = €99.90

56

## Imperial Fishing Alu-Airguns 'New generation'

For Boilie production on a bigger scale!  
We have been searching for the perfect big Air-Gun for a long time and are very happy to announce – We have found it!

### Alu-Airguns „New Generation“

Premium manufacture and a solid construction through aluminium. Top quality and very long lasting even under intense usage.

Top priority has been given to the smooth running but very sturdy screw thread. An internal Manometer permanently shows the pressure. The nozzle is fixed to the Gun and works very precisely.

Any standard compressor will allow you to work with an ideal pressure of up to 8bar.

The Alu-Airguns New Generation are a great long time investment. Also great deals available as 'Guns'n roller' sets (see page 46).

**Smooth running & strong screw thread**

**Fixed spray nozzle**

**Premium Manometer**

### Midi Alu-Airgun 'New Generation' = €199

- Capacity: approx. 2kg dough
- Diameter: 10cm
- Length: 36cm
- Includes 5 plastic nozzles, which can be cut to size

### Maxi Alu-Airgun New Generation = €249

- Capacity: approx. 3.5kg dough
- Diameter: 11cm
- Length: 50cm
- Includes 5 plastic nozzles, which can be cut to size.

### Monster Alu-Airgun 'New Generation' = €299

- Capacity: approx. 4.5kg dough
- Diameter: 13cm
- Length: 45cm
- Includes 5 plastic nozzles, which can be cut to size

**as 1 • 2 • 3,5 • 4,5kg**

57

## Imperial Fishing „Guns‘n Roller“ Sets

### Imperial Fishing „Guns‘n Roller“ Sets

Great for those who are new to the rolling game, but also for the Pros! Perfect and cost effective way to get into your own Boilie production. No matter if you like to make small or large quantities, we will tailor it for your needs.

#### Every ‘Guns‘n Roller‘ Set contains the following products:

- Boilie roller ‘Professional’. Size is variable 16,20 or 24mm
- BPS (Boilie Protector Spray) for the perfect production and makes your boilies last extra-long without mould.
- iBox 12.5l for up to 8kg of Boilies or Mix in the sets 1&2
- iBox 30l for up to 20kg Boilies or Mix in the sets 3&4
- Imperial Baits Clickbox

#### The final price depends on your choice of Boiliegun:

- 1. Boilie Handgun ‘Learner’ – 1kg dough – price €65  
**You save €15,50**
- 2. Boilie Airgun ‘New Generation’ - 1kg dough - price €205  
**You save €19,60**
- 3. Maxi Airgun ‘New generation’ – 3.5kg dough – Price €275  
**You save €30,80**
- 4. Monster Airgun ‘New Generation’ – 4.5kg ‘dough – Price: €315  
**You save €40,80**

## Imperial Fishing Boilie Protector Spray - BPS

**That's what a Carptrack Boilie should look like! Thanks to BPS!**

- Full taste and aroma
- Dry, hard and solid
- Perfectly round

## Boilie Protector Spray

**Boilie Protector Spray**, or short BPS, is an absolute innovation for the home production of Boilies. Optimise your production! Rolling perfectly round boilies has never been this easy and they are ready for immediate use!

1 bottle BPS is enough for approx. 100kg dough. Spray a little bit onto your gun, the rollers or the dough sausages and take advantage of the following effects:

- Solid sausages go through the gun much easier
- Dough strands and Boilies don't stick together anymore
- You finally roll the perfectly round Boilie on your roller
- The unboiled Boilies don't deform anymore, as you can use harder dough
- The Boilies take less water in when being boiled.
  - > That results in being dry, hard and ready after only 1-2 hours!
- Much less loss of the ingredients when being boiled
- Therefore less clouding and less foam
- BPS is neutral in taste and smell
- Improves the inherent smell of boiled and dried Boilies
- Utensils are much easier to clean, no more sticky mess!

**Spray can 600ml = €9.90**

# Imperial Fishing Rod Art

## General features of the Imperial Baits rods:

- Overlapping tip guides
- Epoxy varnish throughout the rings
- Fuji reel seat for even large reels
- First class carbon blanks

## Rod Art from Imperial Baits

We present you the perfect quartett in regards to carbon fibre blanks. Max Nollert, the Imperial Baits Team and some of our customers enjoy fishing with them very much! We offer something for everybody! In our older iBlog news we told you about the individual development steps. Successfully implemented ideas, concepts and tests, make this impressive quartett to your faithful companion.

Since 2014, we present the fifth rod "Temptation TWIN TIP", incl. two exchangeable tips. And from 2015 we have this wonderful blank even as a single rod in 3 and 3.5 lb at a special price for you!

# Imperial Baits Multirange

## Multirange 12ft 2,75lb

Classy, sensible power, extra light. They will get you really excited! Probably lightest carp rod of its kind on the market.

## Special features:

- Untreated IM7 Carbon Blank
- Casting weight 80-150g, max. 180g
- 7+1 Fuji Alconite guides
- Fuji Reel Seat
- Sensible action with a special fun factor.
- Also very capable for the big ones
- Use them from the boat or the bank

Imperial Baits Multirange 12ft 2.75lb = €209.00

- IM7  
- Fuji Reel Seat

# Imperial Legend Carp

## Legend Carp 12ft 3,0lb

Easily covers a huge sector of Carp angling – an absolute all-rounder!

## Special features:

- IM6 blank, polished with red varnish
- Casting weight 80-180g, max. 230g with pendulum casting!
- Light Over-sized powerful Blank Diameter / Carbon wall
- Parabolic action with a lot of power behind it
- 6 + 1 SIC guides
- Fuji Reel Seat

Legend Carp 12ft 3,0lb = €189.00

- IM6  
- Fuji Reel Seat

For a sensitive CPT,  
Compound Progressive Taper Aktion

← **3.5 lb Tip part**  
For a strong CT,  
Compound Taper Atkion

Imperial Fishing ROD ARJ

# max nollert Temptation MK III

**Temptation MK3 12ft 2,75-3,25lb**

The third Generation of this popular and established bestsellers, made of IM7 woven carbon. Covers a range of 2.75-3.25lb in one rod!

**Special Features:**

- IM7 woven carbon, with a transition into a subtle mat pattern in the tip section
- Polished and clear varnished
- Casting weight 80-200g, max.250g, with pendulum casting
- 6 + 1 SIC guides
- Fuji Reel Seat

**- IM7 Blank  
- Fuji Reel Seat**

**Details:**

Epoxy varnish throughout from the butt ring to 1cm below the overput joint. Giving extra stability on big casts. The rod has a sensitive tip and a strong dynamic spine. Extra-long pull, to keep the tension, even if the Carp makes quick direction changes or strong lunges when diving away from the boat.

Temptation MK3 12ft 2,75-3,25lb = €229.00

## Imperial Fishing Combi Carpos

### Amiaud Combi Carpos

The Combi Carpos, made of stainless steel are very versatile to use and therefore at home on all water and conditions.

They combine the advantages of the Mini Carpo (top section) and the Carpo (tripod). Further advantages are a small pack size, high stability and functionality.

No matter if you use it with 2, 3 or even 4 rods, you'll always look good on the bank. It comes with 4 curved buzz bars.

The front buzz bar is telescopic, so it can be changed quickly to a 2, 3 or 4 bite alarm set-up. In addition you can use 1 or 1.5m legs (extensions) for extreme conditions.

**Combi Carpo Stainless Steel = €399,00**  
**Combi Carpo Steel black = €329,00**

### Combi Carpos – exclusively from Imperial Fishing

- Materials: Anti rust steel or stainless steel (Inox)
- Perfect stability due to Carpo tripod
- Tripod height fully adjustable
- Easy rod alignment, due to quick fastening
- Variable length of the rod placement (max. 190cm)
- Variable Buzz Bar height
- For 2, 3 and 4 rods
- Comes with a luxury transport bag.

# INOX

64

## Imperial Fishing Combi Carpos

**With the Combicarpo**  
**You always have a strong optical appearance!**

### Stability

With the 50cm extension legs, the feet are 120cm apart, which gives great stability.

**New since 2012:** An Inox bolt of 10mm diameter and a practical handle, as well as 2 holes that stop any sliding when tightening, guaranteeing a solid fixing at the desired angle.

Through Extension legs of 100 and 150cm the rods can be placed accordingly high.

### Height measurements:

Height minimum Standard Legs:  
40cm to 60cm

Height minimum 1m Extension Legs:  
70cm to 85cm

Height minimum 1.5m Extension Legs:  
1m to 1.2m

**High variability!**  
**Super Stiff!**

## 2, 3 or 4 Rods

Extension leg steel 1m: €17.50

Extension leg steel 1.5m: €19.90

65

**Superb braided line**

*Dyneema Made in Germany – 0.17mm diameter*

Visible Touch – night sessions become so much easier! Alternatively use Invisible Touch for the perfect camouflage!

- Teflon coated • great strength • Little stretch
- UV light resistant • durability • 12 turns per cm
- Neutral sinking! Neither sinking or rising.

**Surface sealed:**

- Long casts • no wigs • Colour safe • no twisting

**Knife test:**

Lasts 50-60 times over the blade, compared to only 10 times with Monofilament 0,60mm! Also see film reference on the DVD „Best Moments“ or the free YouTube Video with the simple name: **VISIBLE TOUCH**

**300m = €39.90 • 900m = €99.90 • 1200m = €133 • 1500m = €166.50 • 1800m = €199**  
up to 1800m knotless available!

**NEW 2013 - Invisible- & Visible Touch – Snaggy Water**

*Dyneema Made in Germany – 0.30mm diameter – 21 kg (46lb)*

Extreme conditions require extreme gear! That is why we developed the new **Snaggy Water** version of the already very popular braided 0.17mm main line with the same name.

Especially when the rig is being retrieved over several hundred meters through the water, it will pass plenty of obstacles, like weed, shells, sharp stones, etc. That is when you want a really good line to avoid breakages. The finely braided **Snaggy Water** is ideal for hard core missions and with a diameter of 0.30mm and breaking strain of 21kg (46lb) it is almost indestructible.

Available in grey and yellow!

**300m = €54.9 • 600m = €109.80 • 900m = €134.70**  
**1200m = €179.60 • 1500m = €224.50**  
**1800m = €269.40**

**SHOCK IT!**

**Shock`it - Super Shockleader**

Shockleader made in Germany.

- Extra abrasion resistant
- Very smooth
- High knot strength
- Great casting performance
- High stretch

We chose the colours brown-transparent, for it to blend in perfectly with the ground. Ideal in combination with our braided main lines • Invisible- Visible Touch and the new Snaggy Water. The Shock`it provides the necessary security and expansion during the final battle.

**Shock`it 100m = €9.90**

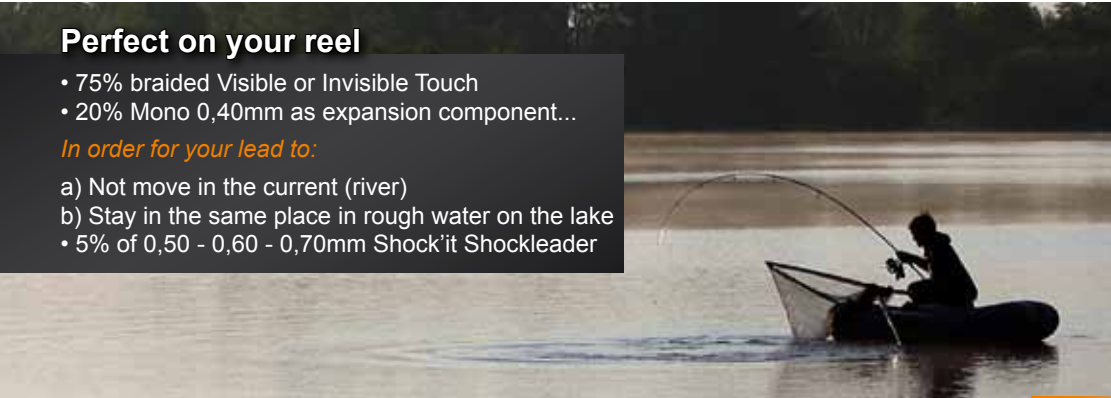

available in 0,50 - 0,60 - 0,70mm

**Perfect on your reel**

- 75% braided Visible or Invisible Touch
- 20% Mono 0,40mm as expansion component...

*In order for your lead to:*

- Not move in the current (river)
  - Stay in the same place in rough water on the lake
- 5% of 0,50 - 0,60 - 0,70mm Shock`it Shockleader

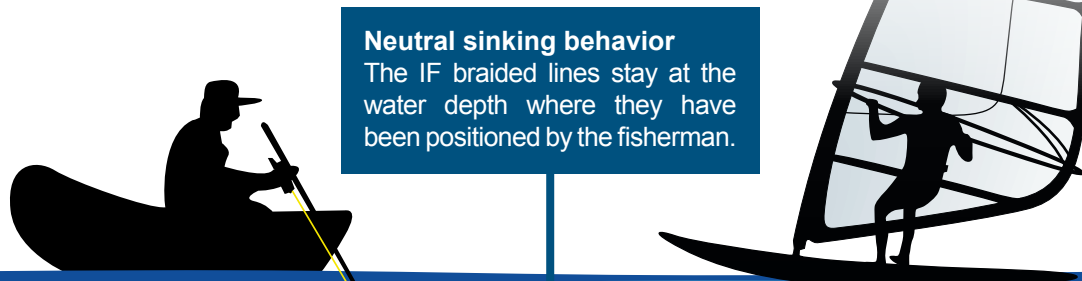

# IF lines sinking behavior

**With the boat:** To avoid the line's contact with flotsam, obstacles and fishes, hold the rod-tip underneath the water surface when you drive back with your boat. By this way you place the line under the water surface, where it stays by itself.

**From the shore:** When you cast your rod, we recommend you to use a sinker that keeps the line at 0.5-1m water depth. Sinker with a line connection to the shore, are ideal for this.

**Shock It:** The end is in both cases a monofile chalk line that lies down inconspicuously on the ground of the water body.

The perfect "line placement" between the water surface and obstacles on the ground is just possible with the neutral sinking behavior of the Invisible/ Visible Touch!

**Neutral sinking behavior**  
The IF braided lines stay at the water depth where they have been positioned by the fisherman.

**The incredible knife test at YouTube**  
The Invisible/ Visible Touch lasts 50-60 times over the knife blade, compared to this a Monofilament of 0.40mm that rips after 10 times over the same blade!

**Youtube keyword:** Imperial Fishing Visible Touch

TOP off 900m  
**FOR FREE 100m SHOCK IT**  
(monofile shock-leader)

**Best Prices**

- 300m = €39,90
- 600m = €79,90
- 900m = €99,90 + 1 x SHOCK IT**
- 1200m = €133,00   "
- 1500m = €166,50   "
- 1800m = 199,00 € + 2 x SHOCK IT**

**TIP: SHOCK IT!**  
The last 15-30m should be constituted of a monofile shock line in 0.50- 0.70mm strength. It sinks, is nearly invisible, is abrasion-proof and allows you the stretching you need during the drill!  
**Tested over 100.000 times!**

## Imperial Fishing Tackle<sup>2</sup> catch

### Imperial Fishing – Carpsack 'Excellent'

When handling the carp we must be very careful. In order to avoid injuring the Carp we thought a lot about how to develop the safest carp sack:

- Size: 115cm x 80cm
- Smooth and easy running zip over three sides
- No pushing the Carp into a 'tunnel' just fold it open completely
- The horizontal reinforcement of the bag supports the carp on the side. Vertical reinforcements have the disadvantage that they press the carp on the belly during transport.
- The Carpsack 'Excellent' has two handles for perfect and safe transport, if necessary also by two people
- The Carpsack comes with a 5m rope, that allows the fish to move away from the bank into deeper water
- The Carpsack also comes with a carabiner
- Optional accessory: Extra Carpsack bag to avoid odours

Carpsack 'Excellent' incl. rope and carabiner = €29.90

Carpsack 'Excellent' Bag = €9.90

### Imperial Fishing - Boilie Air Dry Bag

Premium and very stable. Zips on top and bottom allow easy access, even when the bag is hanging on a tree.

Boilie Air Dry Bag 4kg = €12.90

Boilie Air Dry bag 8kg = €14.90

## Imperial Fishing Tackle<sup>2</sup> catch

6,5m length

1,5kg weight is sufficient for at least 15m buoyant marker pole even with current

Included in delivery:  
6.5m + Weight + bag

### Imperial Fishing – Buoyant Marker Pole

Includes weight and bag

- Due to the professional reflector foil, with the head lamp 'H7' visible to up to at least 220m
- Excellently manufactured in detail
- Almost unbreakable
- Can be adjusted up to 50cm precise of water depth
- Very handy to scan the water ground, as it works like an extended arm

It's recommended to use it in combination with a GPS in larger waters. Easy to handle, even in very rough conditions.

Complete kit, includes weight and bag = €69.90

Extension per 1m = €7.90

**Stick-Lights** are running with two AA batteries and will automatically illuminate at darkness!

Available in 4 colours: blue, green, red, yellow = €24.90

### Imperial Fishing - Boomerang (Throwing Stick)

The throwing stick for accurate distance throws!

If you want to feed boilies in a large distance, you don't only need speed and endurance, but also some assistance.

Allowing to increase speed quickly and release at the right time.

The Boomerang is produced in one piece. The big curve allows you to actually pick up the boilies out of the bucket, whilst standing. No more bending over. They just roll in and can be thrown right away.

Boomerang for Boilies, ideal 16 to 24mm diameter Ø = €24.90

### Imperial Fishing - Carp Pillow

Soft and comfy pillow, with different textures on each side

- Winter, with short soft fleece
- Summer, with soft cool fabric

Measurements: 40 x 28cm = €14.90

## Imperial Fishing iBoat 160 – car trunk boat

The iBoat 160 is made of the 3 layered Dezitex 1100 material and a rock hard high pressure floor (0.6bar). That makes it incredibly sturdy and almost unsinkable. The under keel guarantees to be perfectly on target. It has the paddle retracting system, that has never been seen in such a small boat before. The Original – developed by max nollert.

Space is in our hobby a luxury and normally 160cm is all that is available for the boat in a saloon or estate car.

**Everybody has use for them:**

- Just going to pre-bait
- Quick echo sounder investigations
- Safety boat for a lot of carp anglers
- For long walks, clever to convert it into a trolley
- Spare boat on bigger trips
- Unhooking mat

Transportbag

Removeable transom = €19,90

**EXTREME TEST!**  
*Video online*

## Imperial Fishing iBoat 210, 260 & 320

The iBoats 210, 260, 320 offer a much bigger internal space than other boats in their category. They are the perfect boat for the ambitious angler. They have a great size for exploring tours with the echo sounder, to rest your rods, feeding activities, drilling and thanks to its large internal space also a perfect tackle boat. Many other features set the iBoat apart.

### Generous standard equipment:

The iBoat 210, 260, 320 are equipped with a high pressure airfloor (0,6 bar), high pressure pump, oversized transport bag, a solid iBoat cover, INOX D-ring with handle at bow, 2 black paddles, 2 black aluminium seats, including bank-easy-on-off system (multiposition), repair kit, spare valve, manometer and a Fender Expander Kit (see page 79)

## Imperial Fishing iBoat 210, 260 & 320

**Extremely stabile against tilting even in the worst of conditions!**

### High pressure airfloor:

- standard equipment on all iBoats (160 - 320)
- adamant at 0,6 Bar air pressure
- solid workmanship, withstands also a 2,5 tons heavy Dodge RAM and keeps its shape

### Oarlock of metal (only at iBoats!):

- Standard equipment on all iBoats
- Strong, self-locking bolting
- No deterioration and absolutely break-proof also under stress

### iBoats have been specifically developed for carp anglers:

- More internal space than comparable models 210, 260 or 320
- No superfluous hooks (line catcher) or knobs (net catcher)
- Adjustable and easy removable black aluminium seats
- High pressure floor for quick inflation - ideal transport weight
- Extra strong PVA material Dezitex 1100

### iBoat Prices:

- iBoat 210 = €899,00
- iBoat 260 = €1099,00
- iBoat 320 = €1250,00

### iBoat Camou Prices:

- iBoat 210 = €999,00
- iBoat 260 = €1199,00
- iBoat 320 = €1399,00

# iBOATS - the power of experience!

Since 2009 on  
the course of  
success!

## Space wonder

*special measures see below*

Large pattern for more internal space. No pointed bow!

No superfluous, annoying coaming

38cm tube diameter for more internal space

Fully adjustable alu sliding seat system

Feather-light, stone-hard high pressure floor

Oars arranged in direction of the rear- optimal weight distribution/ sliding characteristics

Perfect paddle length and paddle allocation = max. thrust

Carrying straps also at the cones

Repositioned transom for more internal space!

High-tech PVC material (Dezitex 1100/0,9mm) cold welded

Use an iBoat and drive into the future!

iBoat = Fishing boat! No superfluous line catcher!

Stabile leading and transport cords

Thick protecting rib

No centred cone form for more stability

Inflatable, in-form keel = course stability

Carrying straps without line catching problems.

Indestructible metal oarlocks - unique! (still unique - 12/14)

More internal space than all others - please compare!

iBoat 210 space: 1,26 m<sup>2</sup>  
iBoat 320 space: 2,06 m<sup>2</sup>

iBoat 260 space: 1,55 m<sup>2</sup>  
iBoat 400 space: 3,00 m<sup>2</sup>

## Imperial Fishing iBoat 400 & technical details for iBoats

The iBoat 400 is primarily made for stationary boat fishing. It has a multiplex floor, which is lighter than aluminium and even more importantly - very quiet! The boat is 190cm wide and the inner floor space is an impressive 3 x 1m. The iBoat 400 gets you closer to the carp and it can be transported in any car trunk! **No boat trailer needed!**

All iBoats are made of very sturdy 3layered 0.9mm hightec PVC material (Dezitex 1100, cold velded) and extra abrasion material on the right places.

### Generous standard equipment:

- 5 elements of the multiplex floor (weight 36kg) including the aluminium connecting rails
- 2 oversized transport bags
- Inox D-Ring at bow
- High pressure pump
- 4 paddles
- 3 seats including bank-easy-on-off system and sliding system (multiposition)
- Repair kit • Spare valve
- Manometer • Fender Kit (see page 61)
- Cover

iBoat 400 = €1799.00

The Ehmanns „Hot Spot Bivvy“ fits perfect!

## Imperial Fishing iBoat accessories

### Fender-Expander Kit

Inflatable, very sturdy Fender, made of Dezitex 1100 material.

#### Features:

Practical dinghy valve, 2 Inox D-Rings, 1.5m Expander, 4 aluminium carabiner

#### Where to use it?

Flexible boat fixation at bank-stick or mushroom anchor, fix carp sack, diversion buoy, buoy for catfish angling – **resistant to debris in the water!**

Fender-Expander Kit = €19.90

### Mushroom anchor 7.5kg - PVC coated by www.carpleads.de

The 7.5 mushroom anchor from Amiaud is perfect to use the Imperial Fishing Fender-Expander correctly.

Attached the mushroom anchor to the end of the Fender-Expander, the Fender should be floating as a buoy on the surface. In difficult situations you can attach your iBoat to the Fender, which allows the boat to float safely, away from shore rubble.

Also great to get the carp gently sacked in difficult situations, re-direct lines or use as throw anchor during turbulent drills.

Mushroom anchor 7.5kg PVC coated = €44.90

### Guide Markus Paporozzi www.guiding-tour.de

I wouldn't ever want to miss the Bravo 12V Super-Turboblower on my tours. It works on its own and I can meanwhile set up my tackle. There is no quicker and easier way to inflate a boat.

### New model: Bravo BTP 12 Super-Turboblower = €149,00

Perfect to inflate and deflate dinghies like iBoats or Fender. It automatically stops when the set pressure has been reached. The iBoat 320 takes about 2-3 min to be completely inflated. It can also be used for high pressure floors that require 0.6-0.8bar.

#### Details

- Performance: 450litre/min
- Max. Pressure: continuously up to 1 bar
- Delivery includes bag, tube, air pump adapter
- Includes clips to connect 12V batteries

Bravo BTP 12 Super-Turboblower = €149,00

**NEW MODEL**

# STORMSURE

## GLUES ALMOST EVERYTHING!

**For Repairs, Joining, Sealing and Technical Applications!**  
**The glue cures on contact with water/vapour - the best glue for fishermen!**

**Used by professional saddlers and repair companies!**

### Examples for fishermen

- Waders / Wellies
- Waterproof Clothing
- Inflatable Boats
- Tents, Unhooking Mats, Holdalls
- Rod Pod, Landing Net, Rigs ...

**Price:** Tube 15g = 10,90 Euro

## a „MUST HAVE“ for every Tacklebox

### Materials to glue:

pvc, metals, glass, plastic, pu, composites, nylon, rubber, leather, wood, most fabrics, man-made materials and many more ...  
 - all combine underneath each other!

### Properties:

- Abrasion resistance – Great for bonding or coating objects
- Mix thoroughly with 1% clean water or special thinner for a faster cure time
- Exceptional flexibility even in cold conditions
- Can be painted on when used with a special thinner 60/40, for sealing and porous items
- Resistance to many chemicals

**Seal with Stormsure inflatable boats, tent seams, high pressur airfloors ...**

### Stormsure the experiment

As a hardness test we divided two inflatable boats and two selected candidates made them ready to use again!

**More Info online!**

### Florian Halle and Patrick Huber

participated in this challenge and they passed with flying colours!

## Finde the thermocline! With the new Fish Hawk GTM from ANACONDA®

### Thermocline

Offer and sweepstakes:  
[www.imperial-fishing.com](http://www.imperial-fishing.com)

Max Nollert: "Seriously, to call it a milestone in the carp fishing would be exaggerated, but it is you who will decide during your future fishing sessions, what benefits the Fish Hawk GTM brings you in your carp fishing and your successes."

**The battery lasts min. 5 years!**

than the very sought-after GTM 40 T+ that measured only all two meters.

### History

Before the new Fish Hawk was released, all successful fisher swore by the GTM 40 T+!

The possession of such a tool was so important that no one who ever bought one ever sold it again and due to this the prices of second-hand models were even higher than for new ones.

### Reference point:

In springtime fish just above it, as the vegetation is developed much more due to the high temperatures. In summertime (when it is very hot) fish just underneath it, as colder water contains more Oxygen.

For years the GTM 40 T+ was the most sought-after utensil of successful carp-fisher, but then suddenly it was not on the market anymore!

But now finally the new and improved version of the „Fish Hawk GTM“ is available!

### The big benefit:

You find the thermocline in the wink of an eye!

The underwater temperature is often the secret to success. In each season the observance of the temperature changes, even very small ones, is crucial. The Fish Hawk GTM allows the fisherman to recognize virtually, exactly and rapidly, what are the temperatures at each meter depth over your Spot up to the water surface.

In this manner the device gives twice the information

**Fish Hawk GTM = €159,95**

### Session Pack 7.0 AH = €24,90

**Details:** robust, durable, to recharge / operate small electric motors, sonar, mobile phones, laptops, div. Batteries, Mini TV and more ...

**Size:** 6,5x9x15cm, **Weight:** 2,26kg

### Session Pack BIG ONE 80 AH & 100 AH

**Details:** very well suited for large „energy hogs“ such as Electric motors, large echo sounders or as energy storage for longer trips to load div. Batteries, Laptop and Co. Life over 10 years, shock and impact resistant plastic housing, maintenance-free operation.

**Size SP100:** 17x22x33cm, **Weight:** 32,25kg

**Size SP80:** 16x18x32cm, **Weight:** 22,8kg

**Session Pack 100 AH = €279,00**

**Session Pack 80 AH = €249,00**

Session packs, like all batteries should be charged as soon as possible after usage, to retain their long life expectancy. Works with all standard chargers.

### Downscan (HDI) Preview

### Lowrance Elite-4 HDI with GPS or Elite-4x HDI without GPS

The best echo sounder in functionality as well as value for money for the ambitious carp angler!

*You always wanted to know how a lake without water looks like? **The ELITE 4 helps!***

### Elite-4 HDI with GPS / without GPS - Installation = €318 / €209

*Accessories included: holder with screw buttons, echo sounder transmitter connection cable / device safety, english manual*

### Elite-4 HDI with GPS / without GPS - Portable = €389 / €270

*Accessories included: As installation + echo sounder pouch, holder for transmitter, battery case, adapter cable for battery charger, rechargeable lead-gel battery (Session Pack) 12V 7.0AH*

### Additional accessories:

#### Jenzi Echo Sounder Transmitter Pole = €39.90

Fast, reliable and stabile attachment at boat wall or rear-view mirror  
Length: ca. 85cm • Width: 5cm • Pole angle easily adjustable

#### Think Big Echo Sounder incl. bag & attachment = €69.90

#### Charger 0.6 A for Session Pack (7.0AH) = €39.90

- Suitable to charge the Session Packs 7.0 AH also in combination with the portable Echo Sounder Set, see picture above.

**How does it work with the boilie production at Imperial Baits?**

The most important things in making a high quality and focused on successful fishing Boilie are attractive and fresh Ingredients and their recepies. **Max Nollert and his creative team around Imperial Baits determine and obtain from the start each recipe component**, so every meal and every flavour from which the highly successful Cartrack boilies are produced of. In the meantime their stock counts around 250 places for pallets and stores a huge amount of fresh ingredients as well as fresh boilies! **IB has exclusive Sales and Distributer / Wholesales in 20 European countries**, as well as numerous trade shows, a customer focused marketing, and weekly intensive iBlog updates.

Various online activities, in addition to the creative and scientific work on the boilies are the main daily work for max nollert and his team.

**And IB is reaping fruits of this.**

The award „best bait manufacturer“ has already been awarded two times after 2007 and 2008 in 2011 and 2012 by the readers of the biggest german carp magazin beside the title “best german fisherman“ in 2011 and 2012 for Max Nollert.

**Cartrack boilies are fished with great success by thousands of carp anglers in Europe.**

We are happy about the great feedback of our work and are always motivated to carry on in the same manner.

max nollert & Team

**Mounting of a second hall 2010/2011**

End of 2010 the decision was made to build a second large hall and not without a good reason.

**The iBoats should come...**

After many months of development work, Max Nollert and his Team published blueprints for 3 special inflatables boats. These models are specifically designed and adapted for carp fishing, no Allround-boats as you know from other companies! They help anglers in different situations while fishing. (Sizes: 160, 210, 260, 320, 400)

Just in time for the 3rd January 2011, the construction was completed and the newly developed inflatable boats arrived.

**The second hall today**

Today, the second hall has over 120 additional pallet places for iboats and baits. The extra space helps us to be ready at all times for every big order to deliver reliable and quickly to all countries of Europe...
